

## Do's and Don'ts of QR Code:

### Do's

- Ensure correct name (as per A/C) and VPA (ending with @equitas) are printed in the QR code.
- Carryout a test transaction before you start accepting the payments.
- Confirm your payment through the credit SMS sent by the Bank or Account Statement.
- Affix the QR code within the business premises only, to ensure that QR code does not get tampered by intruders.
- Display the QR code in prominent places which is convenient for customers to use.
- Periodically Carryout test transactions with your QR Code to keep you away from fraud.
- Inform the changes in nature of business or location to the Bank.

### Don'ts

- Do not handover the QR Code to unknown person.
- Do not stick the QR Code on walls and open spaces to avoid any misuse.
- Avoid using the QR code other than the specified business declared with the bank.
- Do not share your UPI PIN to accept payments.
- Do not accept QR code KIT such as sticker, standee etc from unauthorized sources.
